

# Starlink Managed Service

Reliable, high-speed internet designed to keep businesses connected at even the most remote locations.

**FAST**

**ANYWHERE**

**RESILIENT**

By tapping into the power of Starlink's low Earth orbit satellite network, we ensure reliable connectivity where traditional broadband falls short. Keeping your critical operations running smoothly, no matter the location.

**STARLINK** AUTHORIZED RESELLER

## Benefits

Resilient connectivity, no matter how remote.

Scalability based on your business size and bandwidth needs.

Reliable connectivity anywhere.

Business continuity by ensuring high uptime and dependable performance.

End-to-end support.

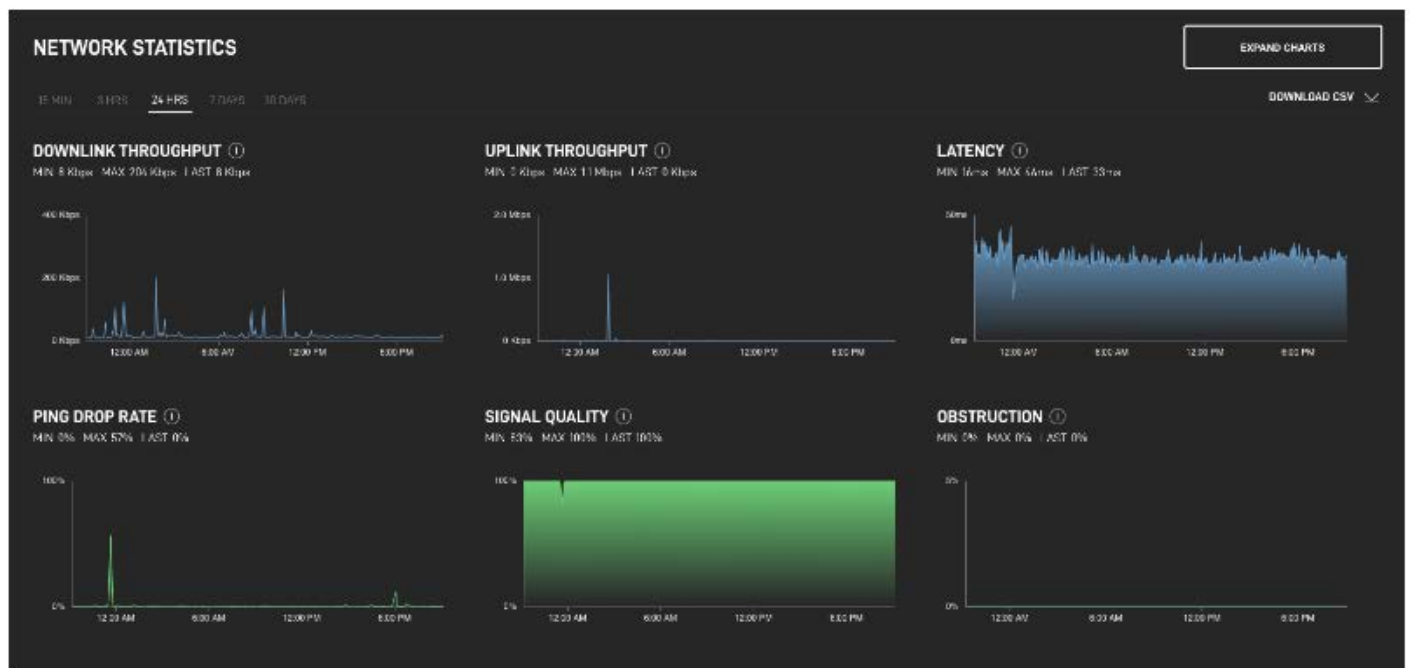

## Key Features:

- Comprehensive hardware options: From the Standard Actuated Dish to the Mini Dish, tailored to your business needs.
- Tailored connectivity solutions: Supporting applications, from cloud-based operations to real-time data transfer, ensuring continuous productivity.
- Optimised for diverse environments: Options with varying power consumption and environmental ratings (IP54–IP67) for extreme conditions, on land or sea.
- High performance, low latency: Speeds up to 220 Mbps download and 25 Mbps upload with low latency (20-40 ms).

# Starlink Enterprise Dishes Comparison Sheet

Dish	Speeds	Environmental Rating	Field of View	Power Consumption	Wind Rating	WiFi Band
Standard V4	Up to 220 Mbps download, Up to 25 Mbps upload	IP67	110°	75-100 W/Hour	Operational: 96 kph+ (60 mph+)	WiFi 6
Flat High Performance	Up to 220 Mbps download, Up to 25 Mbps upload	IP56	140°	110-150 W/Hour	Survivable: 280 kph+ (174 mph+)	WiFi 6
Mini	Up to 100 Mbps download, Up to 15 Mbps upload	IP67	110°	25-40 W/Hour	Operational: 96 kph+ (60 mph+)	WiFi 5
Enterprise	Up to 220 Mbps download, Up to 25 Mbps upload	IP67	110°	75-100 W/Hour	Operational: 96 kph+ (60 mph+)	WiFi 6

## Customer Dashboard

## Making technology fit-for-purpose

We are network infrastructure specialists, partnering with industry leading vendors to help our customers overcome complex transformation challenges.
